Call for Special Session Proposals

The AICAS 2019 Organizing Committee invites proposals for Special Sessions to be held during the 2019 IEEE International Conference on Artificial Intelligence Circuits and Systems in Hsinchu, Taiwan from 18th March till 20th March 2019. The objective is to complement the regular program with new or emerging topics of particular interest in analytics algorithm, analytics architecture, and analytics circuit, at specific or cross levels-of-abstraction including algorithm, system architecture, microarchitecture, and circuit, in spanning the ABCs (Algorithm, Big Data/Storage/Memory, and Cloud/Edge/Neuromorphic Computing) of artificial intelligence in circuits and systems.

Special Session Proposals
Each session is expected to have four (or five) speakers including the organizer who provides an overview of the topic area. Prospective organizers of special sessions should submit proposals indicating:

- Title of the session
- Short biography of the organizers
- Proposed topics and speakers: Please provide a list of all topics, speakers and co-authors, contact information of the corresponding author, and an abstract of each contribution.

Proposals should be submitted due on or before Aug. 10, 2018 and sent via e-mail (in pdf) to the special sessions Co-Chairs,
